> JOHN ARMSTRONG President.

Was he drunk? By no means. A man of his dignified character never does get drunk. But the uphill roadway had a spite against him. It rose up several times and struck him on his head. And then an impertinent lamp-post tangled itself among his legs, tripped him in a most treacherous manner and mocked him with its malignant lights. Such things should not be. Roadways should be put on their good behavior and lamp-posts bound to keep the peace. They should not be allowed to play tricks on travellers.

THE BOARD OF DIRECTORS OF THE A. & N. C. R. R.—The Governor has appointed the following members of the Board of Directors of the A. & N. C. Railroad : Messrs. L. W. Humphrey and John'R. ESCAPE OF TWO MORE PENITEN-TIARY CONVICTS-THE GUARD KNOCKED DOWN AND SEVERELY INJURED .- Yesterday while one of the guard, Mr. R. G. Best, was accompanying two of the penitentiary convicts after water, at the brick yard just east of this city, the prisoners struck the guard on the head with a rock and felled him to the ground, and wrenching from him his gun struck him over the head with that, and then made good their escape. Mr. Best was severely, but we are glad to learn not serious-

MATRIMONIAL .- On Tuesday evening, the 22nd inst., Henry A. London, Jr., of Pittsboro, and Miss Bettie L. Jackson, daughter of J. J. Jackson, Esq., of the same place, were united in the holy bonds of matrimony, the affair taking place in the Episcopal Church at Pittsboro, Bishop Lyman and Rev. Mr. Sutton officiating. There were 9 couples assisting on the occasion.

A most enjoyable entertainment was given the friends of the party on brides's father, a similar entertainment on Wednesday night at the residence of Mr. H. A. London, Sr., and to-night a ball is to be given by the Pittsboro Pleasure Club, to be followed by other entertainments in the neighborhood, when Mr. London and lady will take a bridal tour. They have our best wishes for their future happiness and prosperity.

FEDERAL COURT .- This Court has been engaged the last three days in hearing the case of Ober & Sons, of Baltimore, vs. Gen. Bryan Grimes. of Beaufort county, the three days being occupied in the examination evening, when argument commenced. Smith & Strong for the plaintiffs, and Fowle and Badger for the defendant, the argument concluding at 9 o'clock last night, when the case was given to the jury.

This case involves some \$700, Gen. Grimes refusing to pay for fertilizers obtained upon the ground that it failed to come up to what it was recommended to be.

We visited the Court room last night at 11 o'clock and found the jury literally "floored," engaged in the duty of quietly digesting the legal lore with which they had been treated or in silently communing with old Morpheus. We presume a ver-

SALE OF THE W. N. C. R. R.-We are enabled to add some rather more definite information in regard to this transaction than was given in yesterday's issue of the NEWS. The road was really knocked down

to Hon. A. S. Merrimon as purchaser at \$825,000, and he now stands as ostensibly the holder of the property. Up to the time of the sale, the interests which Mr. Merrimon represented were unwilling to submit to the scaling of their claim as agreed to by other parties, and Mr. M.'s bid being the highest, it was knocked down to him, and he gave a check for the sum required to be paid in cash at the time of purchase-\$10,000. Subsequently, however, Mr. Merrimon's clients agreed to submit to the scaling accepted by other parties, and the commissioners on the part of the State then agreed to take the purchase off his hands. Still at present all the transactions stand in the name of the first purchaser, and the State Commissioners will so report to Judge Dick on Return Day, which will be the first Monday in July. On the 1st Monday in August, which will be Rule Day, the sale is expected to be confirmed by Judge Dick. After the confirmation of the sale, the Gov. will appoint three commissioners, who will proceed then to carry out fully the purposes of the Act. Until that time, the road will remain under its present management.

LOCATION OF THE WESTERN IN-SANE ASYLUM.—Active operations for the building of the Western Insane Asylum have begun. The preliminary drawings for the institution have been made by the architect. Samuel, Sloan Esq., of Philadel. phia, and approved by the Building Commission. Dr. Eugene Grissom, Dr. N. Mendenhall, and Capt C. B. Denson, of the commission, proceeded to Morganton on the 15th

inst, and were joined there by Col. T. G. Walton and Dr. Whitehead, the remaining members, and Mr. Sloan, the architect. The week was spent in careful surveys of the surrounding country, within the limits of location authorized by the act. Lines were run to various points to ascertain the practicability of obtaining preper water supply by gravity, to avoid the great annual expense of pumping 40,000 gallons daily, from the Catawba river.

After thorough examination, the commission decided on the 21st inst. to purchase a tract of land, contiguous to the Vine Hill property and lying Southeast of that, principally owned by Mr. Ferree, and immediately overlooking Lake Louise. It is about one and a half miles from the Court House in Morganton, and is eligible in every respect. The scenery is exceedingly beautiful; the site includes several hills, shelving gradually from a plateau which forms an admirable building plain, to a sloping lawn on the right down to the lake. A fine Southern and Eastern exposure can be obtained, so that the sun will shine directly in each room occupied by a patient, at some time during the day. There is also an excellent grove including some fine old oaks. But what is most important, a careful survey determined the fact that at that point 117 feet can be obtained as a head of water, from pure springs immediately at the side of South Mountain, four miles distant, and furnishing 240,000 gallons daily, or six times the calculated necessary supply. As this comes without cost, when the pipes are once laid, a large surplus will always be at command for irrigating, watering or ornamental purposes. The water is also much

more pure than that of the river. The view of Table Rock, in front, with Mt. Mitchell and Clingman's Peak to the left, the Grandfather stretching his long profile and looking up to Heaven in the distant centre, and the Linville Mountain and Brown Mountain in the middle distance, while far away to the right Monday night at the residence of the and sweeping around the horizon are the mountains of Caldwell county. High Briton, and lastly, High Peak of South Mountain, all enclose a grand exhibition. Morganton lying in the centre, and the new Asylum in the South, will look down upon the lake, and command a view of the town beyond with the gigantic framework of the mountains, as we have named them.

Proposals for brick, &c., will come in July 8th, and in six weeks, when the working drawings are finished, ground will be broken for a structure which it is hoped will be a source of pride to every lover of his State. It ought to be stated that the patriotic county of Burke pays the bulk of the cost of purchase, making the cost of the site a mere trifle to the State.

It may be well to state some facts in the history of Mr. Sloan, who has been entrusted with the plans of so important a structure as the Western Insane Asylum, as this is naturally important to the public interests.

He has been an architect for twenty seven years, and has constructed more Asylums for the Insane than any man in the United States. Among them are Dr. Kirkbride's splendid institution in West Philadelphia, the State Asylums at Trenton N. J., (where Miss D. L. Dix resides) Kalamazoo, Mich., Columbus and Cleaveland Ohio, Madison, Wis., Tuscaloosa Ala., the very excellent and economical State Asylum for Minnesota, and the Insane Asylum for the Isle of Jersey, in the channel, built for the British Government.

He has lately erected the finest institution for the Insane in the U. States, at Morristown N. J., and supplied the plans for the new institution to be built in California. It is not necessary to refer to the numerous other public works, State Capitols, &c., throughout the country. Mr. Sloan has operated very largely in the South, having built many fine residences and churches in La., Miss., and Ala. He was a personal friend of the lamented Bishop Polk, for whose friends he had charge of much superior church architecture.

Mr. Sloan is an author of high reputation in his professsion. He published "The Modern Architect" 2 vols, folio, in 1852, the "City and Suburban Architect" in 1860, and the "Homestead Architect" in 1863. He is also the author of a very valuable practical book for mechanics, entitled "The Constructive Architect."

We may fairly congratulate our people upon securing his valuable services. The Commission are under many

obligations to the citizens of Morganton for their numerous courtesies, and abundant hospitality-and es pecially to Col. S. M. Tate, Mr. John Pearson, Col. Walton, E. T. Walton, Rev. Mr. Falls, Dr. Happold and

> The earthquake shocks last week in Ohio, Indiana and Illinois, com-ing so soon after the great upheaval in South America, recall the fact that in 1811 the earthquakes which were so devastating along the line of the Andes were also felt in the Miss-issippi Valley. It may be that the tremblings felt last week in the iWestern States were but indications of still greater calamities in South America than have yet been reported.

No letter can be published in these columps which is not authenticated by the name of its author. This we require, not for publication, but as a guarantee of the good faith of correspondents. Persons who violate this rule will have their communications consigned to the was 3-basket.

THE WEEKLY NEWS is the cheapest paper published in North Carolina. It is only one dollar per year, postage paid, contains 32 columns of plain printed news from every section of the country, and important advertisements. Always Cash.

WE used but an extract from the report of Hon. K. P. Battle in our issue of yesterday. What was used was merely intended to show how much and by whom the debt of the State was increased. Mr. Battle answered all the questions of the crongressional committee fully, and it may be worth while to refer to it again.

The National Republican says "When a new government official is installed now-adays it is a custom to make a great howl about his desire to reform things generally." It may be inferred from this remark that reform is needed, and it is expected. The "great howl" would not go up without a cause for it. But the Republican dashes all the hopes of the country by the intimation that all the officials are alike, and that the successor is not expected to be a better man than his predecessor. This is cool. But it is a tolerably candid admission that reform is not be expected, because the material for it cannot be found in the party of which the Republican is the mouth-piece.

CAROLINA HOUSEHOLD MAGA-

The May number has come to hand, having been delayed unavoidably, but principally by that cause which is so fatal a blight to Literary enterprise in North Carolina-want of appreciation by the reading public. Our people are liberal enough to Northern publications; they are indifferent to their own. And yet the Household Magazine, like Our Living and Our Dead, not only compare favorably with, but are equal to many of the much valued Northern publications, and in some respects, superior, Southern talent holds its own with the best, and it only wants some medium through which it may find expression. These mediums are found in the two excellent journals referred to, but they cannot be kept up unless the people of the State will recog-

nize their value. We will transfer to our columns the interesting biographical sketch of Col. Thomas Ruffin, whose life went out in the service of his coun-

A BETTER SIGN. Even the venomous National Republican has become placable, and views the prospect of a day of thorough conciliation—the fruits of Centennial gathering-swith something like composure. The Repubcan has resisted strenuously. Animosities between the sections, kept up by wilful misrepresentation, were essential to the existence of the Republican party. The Republican has done everything to keep the South from gaining the ear of the North. It has worked to keep them apart. It has encouraged alienation. But the Boston celebration has given sudden access to truth, and now the two people begin to understand each other, and there is such a spontaneous move to reconciliation that the Republican cannot ignore it. Of course the Republican cannot be wholly sincere. So it is represented that the class who visited Boston, were strictly speaking, not a representative class, but selected with reference to their conservatism. On the contrary, the South could not have selected men who more truly represented its real sentiments, and we think Boston and the North recognized that fact.

The campaign of next year will develop the fruits of these meetings of the South and the North, The great gun of radicalism is spiked. We will hear little more here-We will hear little more here-Democratic acting Governor. To pre-vent the success of this nice little

ons, but the battle of the campaign will be fought upon issues once again national.

PARTISAN JUSTICE.

The judiciary of the State has undergone of late some purification by the introduction of a better element. The elevation of such men as Kerr, McKoy, Schenck and others to fill the places of Tourgee, Russell, Logan and their kind has given the people a more solid assurance of equal and exact justice, and has restored to the Bench some of its old ornaments of purity and dignity.

But a complete purgation is yet needed. The stains upon the judicial ermine will not be removed until the wearers themselves are all changed. The days of 1868 have made ineffacable marks. The men of that period still carry out the oractices which commended them to the party that elevated them to office. The party itself clings to the principles which found exponents in the men it put forth as representatives. Public opinion has done much to restrain these men .-The weakening of party strength has shorn them somewhat of their boldness. But occasionally we see that defiance of public opinion, and that subserviency to party interests which brought the judiciary of the State so justly into odium.

As for instance at the present term of Halifax Superior Court, Elias Powell was put on trial for the murder of Cohen, at Whitaker's. The case was given to the jury on Friday afternoon. The foreman of the jury, informed that the Judge (Watts) was on the point of leaving for a political meeting in Nash county, sent word to the Judge that the ury would soon agree upon a verdict, and begged that he would remain to receive it. The jury did agree apon a verdict on Friday evening. But His Honor being engaged in the more important duty of holding up the fortunes of his party, went down to Nash in company with the Solicitor, made his speech at a Radical County Convention on Saturday, opening the court again on Monday, during the whole of which interval the jury were kept together, kept from their homes and families, kept at a considerable and needless expense to the county, to do what ought to have been done on Friday night, that a Radical meeting might have the benefit of the presence of a Judge who was paid to be on the bench and whose business it was to

A ROORBACK. The Harrisburg Telegraph has unearthed a terrible plot to upset the government of North Carolina during the proposed absence of Gov. Brogden at the Boston Centennial. The Governor will be the first to laugh at the scheme. His Excellency did intend to go to Boston to participate in the Centennial, but he felt himself compelled to be present at the sale of the W. N. C. R. R. at Salisbury on the 22nd inst., only a few days after the Centennial. His Excellency, who has never been North, did not wish to have a pleasant visit so abruptly terminated by business, and therefore concluded

not to go. Stealing governments is an act not yet learned by the Democrats. The Radical party has alone furnished examples of this fine art. The Lieut. Governors of Mississippi, South Carolina and Louisiana have in turn seized the reins when their chiefs were absent. If any such ideas as shadowed forth by the Harrisburg papers existed anywhere, it was in the brains of the Radical party who feared its own weapons

might be turned against it. The Harrisburg editor blesses himself after the manner of the Pharisee that he has been educated in another school. Oh yes! and that the school of Pennsylvania politics! That is enough, without dwelling on the trickery, the fraud, the corruption, the violence which has made that school the reproach of politics. And coming out of the that school, to talk of honor!

Here is the plot. Do the Democrats recognize it?

From the Harrisburg Telegraph. Tar-Heel Sham-Conservative Plot

Defeated. North Carolina has a Republican Governor, but the Lieutenant Govrnor is a Democrat. The Governor intended to go to Boston to participate in the Bunker Hill festivities. And the Democrats of that intensely onorable State projected a nice little cheme to be played while the Governor was absent. The present judge of the Supreme Court appears to be a Democrat, but does not appear to suit his party very well. Some of the managing politicians of the judge's political faith secured his resignaion to be presented to the Lieutenant Governor as soon as his chief left he State and the duties of acting Governor fell upon him. Then som other important offices were to be vacated by their incumbents and successors, in favor of some of the the accomplishment which the Governor has steadily obstructed, were to be appointed by the

scheme Gov. Brogden has been forced o remain away from Boston, and so fail to appear at the Centennial, to which he had been invited and had announced his intention of attending. This scheme of the tar-heel Democrats bears a close resemblance to a plot for stealing the Sunday dinner of a man who is going to church. But then, as it was to be done by chivalrous sons of Carolina, we suppose it must be all right. Only we have been educated in a different school, and we are unable to appreciate that fine sense of honor which our Southern brethren-and particularly our Carolina brethrenare so justly celebrated.

What Gen. Fitzhugh Lee Says of the Reception in Boston of the South-The following is the full text of

General Fitzhugh Lee's speech at Norfolk on Monday night, the occason of the return of the Norfolk Blues: Fellow-Citizens of Norfolk, Ladies and Gentlemen: I come forward, in response to your calls, to thank you for this very flattering reception. I went to Boston as a guest of your own "Artillery Blues," not because I expected to have a pleasant trip and a good time, but I hope for a higher, holier purpose—for the good of our State, our people, and all sections of a common country. Oh! how I wish I had time to tell you of the reception accorded to us by those people of Boston-of the enthusiastic crowds that greeted us upon every occasion-how the streets were lined with people pouring out their welcomes to us, and bidding us welcome, thrice welcome. I wish I could stop with you long enough to give you some of the many interesting incidents of our trip. How a sightless soldier told me, "General, your boys put my eyes out, but I am glad to see you here in our midst;" how an aged gentleman, grasping both my hands in his, said "General, I lost two sons in the war-the only two I had-but for public consideration and for the nation's good, I am glad to see you and your people here at

How my hand was shaken by peole whose overflowing hearts prevented a single word of utterance. Do ou know what all that means? It means at that end of the line precisely what the outpouring of your people at this end of the line to meet us upon our return means, viz.: That the people of this country have taken this matter of reconstruction out of the hands of the politicians; that the crust which separated them has been broken at last, and the men of the North and South are at last allowed to see each other face to face. You, people of Norfolk, have no right to be ashamed of your delegation to Boston. Their bearing, on and off duty, deserves the highest praise, and you come back to your ives and sweethearts, conscious of having performed your hole duty as representatives of your city. splended welcome of yours here shows most conclusively that Virginia responds to the hospitality shown her sons in Massachusetts, and that we are indeed upon the

threshold of a new century.

I know you will excuse further remarks just now, for I am very tired, though very glad to see you all.

[For the Daily News. Nominations in Order-a Hint. A few days ago the writer saw on he cars a Doctor of Divinity, a member of Congres, three editors, a president of two railroads, a merchant and a lawyer. A free canversation occurred in regard to the Presidency of the University. Five were in fayor of Hon. Jefferson Davis and three for Gen. Jo. Johnston. The three, however, would be well content to have Mr. Davis, preferring him to any one else after Gen. John-The railroad President said. if Mr. Davis was chosen and accepted he would give \$500, and he thought he thought he new five others who would give a similar amount, and he believed one hundred persons could be found in the South who would

each give the same sum.

If Mr. Davis cannot be induced to ome, as he has probably accepted the Presidency of a Texas College. why not invite Gen. Johnson? man of national reputation is needed. Bishop Pierce is no doubt well qualified, and is a distinguished pulpit orator, but it is hardly probable that at the age of sixty-five he would retire from his life—long work to engage in a new enterprise foreign to his mission. Probably Mr. Davis would prefer the Atlantic slope for a home, such a President would be cheap at \$5,000 a year. Let the Trustees weigh the matter. Very much depends upon the selection of a Presidency and officers.

A school teacher in Mississipp used his faculty in short hand to make a verbatim report of a negro clergyman's prayer, and he sends it to the Educational Monthly as follows: "O Lord God of this glorious universe, wilt dou look down in de omnipotence of dy eye upon dese dy collard children knuckle-bone dis night. Take a solemn peep upon us and let a heap of light in. Don knowest what des dy poor darkies need. ELI IN LOVE .- "Did you ever do anything in a state of indifference, Miss Julia?" I asked an old sweetheart of mine last night.

"Why, yes, certainly, Mr. Perkins; a good many times. What! did it with absolute, total indifference!"

The Wilmingtonians will "sound" it on the 5th of July, when yachtings and tub racing will be the order of the day.

The ship Hamlin of Boston arrived at this port early yesterday, with a cargo of sugar consigned Morening & Co., from Manilla. Her commander, Captain Ross, states that at 3 A. M. on June 4, when in latitude 19 degrees 16 minutes, longitude 57 degrees 51 minutes all on board felt the shock of an earthquake which lasted fully ten minutes. During this time there was a heavy sea running, and in different place the water appeared to revolve in circles like a whirtpool. When the disturbance first began the sea was quite smooth, but as the shock increased in violence the waters became correspondingly agitated, terrifying who were on deck and arous ing those who were sleeping below. Suddenly the vessel received a shock as if she had grounded and a reculiar rumbling noise filling the air. Simultaneously with the shaking, the sky assumed a dull, leaden hue. The atmosphere was also thick and hazy. During the continuance of the shock, control of the vessel was completely lost, and the ship refused to obey the helm. There was little, if any, wind at the time, yet the vessel wa

A Quaint Letter from a Bank Office. Occasionally the official correspondence of the Department is enlivened by would-be wits. The Treasury Department has received the followng letter from a cashier in a rural national bank, transmitting a lot of United States bonds to be exchanged for registered bonds. He says: "I may not have expressed myself properly, not knowing much about the business of swapping bonds, but my intentions are pure and innocent. wish to have these bonds in such condition that when a burglar comes to my room at midnight, puts a pistol to my head, twists my rose, and takes me by each ear and leads me to my bank and compels me to unlock my safe, I can contemplate the removal of my bon ls with a smile that is child-like and bland." He insisted, but the waiter persistently refused, until asked if he would bring materials for toddy, viz: whisky, sugar and boiling water. He brought them without a murmur; the gentleman had the hot water, and the waiter found use for the whisky and sugar.

ROOMS OF THE DEMOCRATIC CON-) SERVATIVE CENT'L EX. COM, RALEIGH, June 1st. '75. To the People of North Carolina: The General Assembly at its recent session called a Convention of the people to meet at Raleigh on the 6th day of September next, for the purpose of suggesting such altera-tions in our organic law as may be deemed wise and expedient.

NECESSITY FOR CHANGE. The necessity for changing many of the provisions of the existing Con stitution is generally admitted, and is too apparent to require extended argument. It is true that some of our prominent men at one time opposed the call for a convention; but their action was based on prudential consideration, and not on an indisposi-tion to have the Constitution thoroughly revised. They feared that our purpose in seeking to reform our Fundamental Law, might be misconstrued by the violent and ill-informed men then controlling Congress, and the prosperity of our peo-ple checked, and the peace of the State jeopardized by some barsh and nuconstitutional action on the part

of the United States authorities. That fear no longer exists. We now have every assurance that the Constitution of the United States will be observed by the officers of the Government, and feel a satisfaction in announcing to you that the time has at last arrived when the officials at Washington City concede that the pecple of North Carolina have the same right to manage their local concerns which the citizens of other States enjoy. We can proceed without apprehension to perfect our Con-stitution and remodel it in the interests of our people.

THE CONSTITUTION, THE CREATURE OF MILITARY LAW.

This Constitution, the creature of Military dictation, was born in the throes of a Military reconstruction. Its authors were mainly Sciolists and adventurers, who had lived among us without preferment, or possessed of qualifictions entitling them to it: others were our recent slaves, who had known no law save the will of their masters, and others still were carpet-baggers, both black and white—alien in feeling and Radical in education—who sought positions here that were denied them where known-to despoil and humiliate us. And when their work was submitted to the people at the polls, thousands of our best citizens were deprived of the right of voting upon it, and over eighty thousand ignorant negroes were given the ballot to secure its adoption. It is no exaggeration to say that not one person in ten who voted for it could read the instrument, and not one in fifty had read it or was even moderately familiar with its provisions, and many gave it their support beleiving it would be merely temporary, and to escape further agitation and revolution. It is natural therefore that a Constitution thus formed and adopted should be found unsuitedt o our condition, and that we should embrace the earliest opportunity consistent with reason and prudence to secure such changes as time and experience have shown to be necessary. Our organic law should be expressed in language clear, simple and perspicuous, so that nothing may be left to inference or construction; our rights, so precisely defined as to be comprehended by all men of ordinary intelligence; and each debe so restricted, that while left free to discharge its appropriate duties, it cannot by unwarranted encroachments embarrass the proper action of

That the Constitution contains some good provisions no one denies; it would be singular if it did not, but its abominable characteristics were so manifest that not a single Conservative member of the Convention that passed it could be induced to affix his signature to it, as a fit instrument to be submitted to the people. Indeed its provisions are so loose-ly worded and so badly arranged as to constitute but a medley of inconsistencies that defies the successful construction of the courts; in fact, to reconcile the difficulties arising from its practical workings, the court has in some instances been driven to supply omissions, and in others to introduce a new principle, hitherto un-known in the juridical history of our State, distinguished as "judicial legislation," an innovation anti-republican in character and invasive of the rights and duties of a separate depart-Its provisions are so obscure that within the brief space of its ex istence many more decisions on constitutional questions have been demanded than in the entire previous history of the State-and of late we have witnessed the extraordinary spectacle of two sets of judges in both the 2d and 8th Judicial Districts, contending for the same position one of which claiming to hold by at appointment from the Governor for a period of ten years, an office that the Constitution seems to say is to be filled by the people at the polls, and whose term is expressed to be only

THE CONSTITUTION UNSUITED TO OUR

eight years. In many counties, there is a practical denial of justice, the courts are inadequate to the public demands, and thus they are driven to resort to special terms, which are expensive and unsatisfactory, and persons accused of criminal offenses are often confined for months without trial We need a speedier justice and a less expensive judiciary system. We should abolish every useless office, which is now filled by a mere consumer; for only by a rigid and prudent economy in our public as well as private affairs, can we hope to restore the State to prosperity. It is believed that the laws will be more impartially administered by a return to the old practice of a rotation of the Judges. AMENDMENTS TO THE CRIMINAL

LAW NECESSARY. It is also hoped that a greater incentive to honesty and a purification of the ballot box might result from depriving those who are convicted of infamous crimes of the elective fran-

The matter of the Penitentiary which already contains more than six hundred able-bodied men, also demands careful and practical attention, to remove in some measure that burden from our shoulders. Most of our private legislation should be ex-cluded from the General Assembly. However, our limited space does not permit us to catalogue the numerous defects and imperfections of the present constitution or to enumerate the

remedies to be offered. There should be some general or dinance adopted in relation to private enactments, thereby reducing the expenses of the Legislature, and in order to prevent hasty and inconsider-ate legislation that no new matters be brought forward within - days of their adjourning. CAREFUL SELECTION OF DELEGATES.

As to the specific changes that ought to be made, these are to be considered by the citizens of the various counties, who should be careful to select as delegates those who will prop-erly reflect their wishes. Men of enlarged and practical statesmanship, spotless integrity, representa-tives of all classes of society, and whose positions among them will en-title their labors to confidence and support-and in their hands they certainly can more safely confide their rights than in the Convention of 1868.

METHODS OF CHANGE. Of the two methods prescribed for changing the Constitution, that by legislative enactment is expensive, uncertain and dangerous; the several amendments recently submitted to and ratified by the people encoun-tered the greatest difficulties in their passage, and even after the will of the people was declared in their favor by over 40,000 majority, serious apprehensions were entertained as to whether they were properly adopted; again, legislators when possessed of qualifications for such duties, are encombered with numerous matters and cannot bring that attention t each provision presented for consideration, without meeting such criti-

cisms as may imperil their labors.
The Convention method is speedy and economical, the body is posed only of the same number of nembers as comprise the House of Representatives, and their minds are directed alone to constitutional reforms and their work may be com-pleted and ratified, if necessary, in six months. As to the expenses may be incurred, it is believed they will be more than defrayed in a short time by the reforms that will be in augurated.

The restrictions imposed by the Legislature, fully and amply secure the Homestead, Mechanics Lien, Rights of married women, and Pre-sonal Liberty, and should quiet the fears of the most timid, for they are recognized as of binding efficacy and are chiefly enjoyed by the friends o constitutional reform. Indeed they were incorporated in the bill mainly to remove partizan clamor, and antic ipate unscrupulous agitation. They are not the property of a mere party but had their origin in the necesisties of civilized society and were found among the statutes of various States

previous to the war. QUALIFICATIONS OF DELEGATES. It is useless, however, to seek to quiet the mere caviller; the keen optics of some persons defy all law.— The mere fact that the honor of the best men in the State is pledged to their preservation, should satis-fy every reasonable voter. This Convention is called in pursu-ance of law, and each delegate before "he shall be permitted to sit, to be entitled to a seat in said Convention or act as a delegate thereto, shall swear to observe these "restrictions" (see acts 1874 5). Should a part comply and part refuse to take this oath, only those who obey the law are members of the body, nor are we without precedents: similar oath was required of the members of the "restricted Convention" of 1835, the same question was raised, and after debate all the members took the oath and observed the restrictions, and that in a time of high party excitement. In that discussion the distinguised Judge Gaston used the following language: The State Legislature had indeed no authority to impose an oath upon the members of the Convention, but the people had ratifled the act of the Legislature by choosing delegates or refuse obedience to the conditions therein prescribed, we are not the Convention called by the people, but a self constituted body;" these views were concurred in by Macon, Edwards, Morehead, and others. We will dismiss this subject, however, by calling attention to the able work of Judge Jamieson on "Constitution al Conventions," where, by argument and the cases cited by him in relation to this matter, he demonstrated that Conventions are bound to obey the restrictions imposed by the Legislature in the Act calling the Con-

vention. ing to see Republicans who had hitherto submitted to the control of uncrupulous leaders under a mistaken belief that they were promoting the general welfare, seeing their corruptness as demonstrated by the "Credit Mobilier revelations," "Sanborn Contracts" and other frauds and defalcations, and their vindictive and relentless policy, whereby they sought to degrade the superior race by this iniquitous "Civil Rights Bill," overcome their party prejudice and give us their readial enterer. cordial support. To them we extend an invitation to remain and continue the work so auspiciously begun. To those who opposed us under the de-lusion of their leaders, who assured them this bill would never pass Con-gress and if it did would be vetoed by the President, though it now has his signature; and who have witnessed the earnestness with which the dangerous "Force Bill" was urged upon Congress, we say no longer re-main where there is neither safety nor honor to a North Carolinian. The battle for civil liberty is not yet over. 'Civil Rights" is still a part of the secret carpet-bag programme for this State; though driven from the halls of Congress, it will be renewed in the Southern States. We there fore invite their co-operation. The Convention owes its final success to the support of some of their ablest representatives in the General As-sembly and they are doubtless aware that the wise provisions introduced into the Convention of 1868, by their ablest native representatives were scouted and defeated by that same element that has brought ruin upon their party and confusion to our

NECESSITY OF ORGANIZATION.

The friends of Convention should at once pertect their organization and bring out their best men in every county in the State. The leaders of the Republican party know that by their receless violations of the constitution and efforts to centralize all power in the hands of the Federal Government, they have justly forfeited the confidence and support of the people; they therefore trust not to their own strength but to our apathy, and will endeavor to secure our defeat by divisions and false leaders. We therefore respectfully invite their attention to the following resolution adopted and successfully followed in our last campaign: NECESSITY OF ORGANIZATION.

last campaign:
Resolved, That we earnestly recommend Resolved, That we earnestly recommend to the members of the Democratic Conservative party to discourage independent candidates and all other disorganizers, that all support be promptly withdrawn from every aspirant for office who shall oppose the regular nominees of our Conventions. Let your primary county Conventions be duly advertised and see that the people bave a full opportunity of attending and expressing their wishes. The contest is important not only in its immediate effects but in subsequent results. The Republican party, under the leadership of carpet-baggers still remaining among us, will advocate the election of delegates, who will agree to mert and as journ without holding a Convention, and this in violation of the wishes of the people, expressed through a two-thirds majority of the chosen Representatives, and after a considerable part of the expenses for milage and per diem is incurred. We believe, however, the propose is but a delugion and snare, for shoul i they ascertain they have a majority in the body, it will be an easy matter for them to evade their promise by the refusal of a few to concur; as they do not acknowledge the "restrictions" as binding, they will resort to the most revolutionary measures to sustain their desperate fertunes, and in the end will fall to submit their work to the people for ratification or rejection.

Let us, therefore, present a united front, and with a general advance along our lives Badicalism will not only be routed but overwhelmed, and a victory for Civil Liberty assured for 1876.

I am respectfully, J. D. WHITAKER, Raleigh, Feb. 22, 75. OFFICIAL REPORT The following is the sworn report of sales of Sewing Machines made by the leading Companies for 1874. An examination of the figures below will show that the "Singer" has largely increased its sales, while the other con pinies have fallen off."

The Singer mas shown a large increase in sales every year as the statement below for the last mur years will prove.

In 1871 the Singer sold 52,734 more ma-chines than their highest competitor.

In 1872 the Singer sold 45,665 more ma-chines than their Lighest competitor.

In 1874 the Singer sold 148,852 more ma-chines than their highest competitor. Making the total sum of \$75,137 machines which was \$60,545 more than their highest competitor. This fact proves the great superiority of the "FI GEN" over any other machine. Now the question is, how long will this state of ansits last? How long will the other companies be also to keep offices open in the different etities and towns when they are selling so few machines? Persons who think of buying or exchanging old ones (of whatever kind) are invited to consult their interest by getting a reliable machine from the old and reliable Singer Manufacturing Company.

Further Particulars of the Recent Great Barthquake in South Amer-NEW YORK, June 24.—The steamship Andes at this port from Maracaibo brought further particulars concerning the recent terrible earth-quake which destroyed the town of ucuta in New Granada from persons who had reached Maracaiba from Cucuta shortly before the steamer sailed, it was learned that the loss of life and property was much greater than at first supposed. Cucuta and all the surrounding villages within radius of 20 miles were completely destroyed by the severity of the shock; many serious losses of life and property also were occasioned by the rain and by bands of robbers who organized immediately after the shock had passed away for the purpose of plundering the houses pros-

The Custom House and coffee ware-houses situated in "Los Cochas" were first attacked by a band of these marauders, but they were driven off before any serious damage had been done by them, and forces have now been organized in most of the neighboring cities and towns and sent to the scene of disaster for the pur, ore of protecting the lives and property of se who had escaped the effects of the shock.

THE END AT LAST.

The Great Incubus Removed-Peace will Again Rule in Brooklyn-the Beecher Case to the Jury-Gotham on Tip-toe.

New York, June 24 .- Judge Donahue has issued an order returnable Monday, for the reduction of Tweed's three million bond. The counsels claims the bail as excessive and unconstitutional. The court decided not to open up

the Beecher case to farther testimony. Judge Neilson, after instructing the jury upon the nature of the evidence, concluded with a long resume of the evidence, and the jury

Romantic Suicide and Probable Murder.

NEW YORK, June 24.—An unknown man about forty years of age, with brown hair, having three fingers missing from the right hand, hired a boat at the battery, and accompanied by a woman who gave her name as sophie Schedder, aged 24, rowed to the middle of the river, ostensibly with the purpose of visiting some islands. When more than half way across, the man took a revolver from his pocket and fired three times at woman, the balls entering the leg, abdomen and arm. He then shot himself in the breast and died i mmediately.

A private letter received here to-day by an officer of the Navy from a brother officer at Rio, dated May 23, reports that the yellow fever was raging at that place and the number of deaths daily was from fifteen to twenty. During the first of March. 192 deaths reported. On the U. S. were reported. steamer Lancaster there were several cases. Fleet Surgeon Denby and assistant surgeon Fassig died, the former on the 3rd of April at Bahia, Brazil. But the date of the death of the latter is not mentioned. There had been much sickness on board of that vessel. On the Brooklyn, several cases of fever were reported and two sailors died in April. She arrived at Rio on the 20th of May and was then reported by the sugeon in good sanitary condition. There were a few cases on the Monongahela, but no deaths mentioned when she left Rio. Several officers and seamen remained i , the hospital on shore, but all had recovered except assistant surgeon Waugh. It was expected he would soon be able to start for home.

OFFICIAL REPORT The following is the sworn report of sales of Sewing Machines made by the leading companies for 1871. An examination of the figures below will show that the "Sing-er" has largely increased its sales, while the other companies have fallen off. The Singer has shown a large lucrease in sales every year as the statement below for the last four years will prove.

In 1871 the Singer sold 52,734 more ma-In 1872 the Singer sold 45,665 more ma-chines than their highest competitor.

♣ In 1873 the Singer sold 113 254 more ma chines than their highest competitor.

Making the total sum of 875,137 machines which was 56,255 more than their highest competitor. This fact proves the great superiority of the ">I < GER" over any other machine. Now the question is, how long will this state of analrs last? How long will this state of analrs last? How long will the other companies be able to keep offices open in the different cities and towns when they are selling so few machines? Persons who think of buying or exchanging old ones (of whatever kind) are invited to consult their interest by getting a reliable machine from the old and reliable Singer Manufacturing Company, Office No. 12, fayetteville street.

Machines sent to any part of the State through our agents and full instructions given. Making the total sum of 875,137 machines
